

**Mike,**

Heather and I wanted to thank you for the beautiful home that you built for us at 208 Bluejack Street in WaterColor.

The building process was very smooth. We were somewhat worried about being 1000's of miles away while our dream home was being built. Your good communication with us made the building process very easy. We were also very impressed that when we were in town to check on the project, you always made yourself available. We have built many homes over the years using different builders, and by far your company was the best and the easiest to work with.

We would be more than happy to refer Mike Mckelvie Homes to anyone who is looking to build a home in WaterColor or the 30-A area.

We look forward to enjoying many fun years with our family in WaterColor. Thank you for help making this happen.
